SUMMARY

Business Intelligence Analyst with 7+ years building Excel, Power BI, and Tableau dashboards, recurring reports, and SQL-driven datasets for operational, sales, marketing, and financial decision-making. Skilled in SQL, Excel/Access, Snowflake, PostgreSQL, AWS, Azure, ETL, data validation, and data modeling, with experience turning complex data into actionable insights.

EXPERIENCE

[American Technology Consulting \(ATC\)](#) | Sr. Analytics Engineer

Nov. 2025 - Present

Madison, WI (Remote)

- Built SQL and Python reporting workflows to evaluate production outputs, user interaction patterns, and quality trends, helping teams identify recurring issues, validate reporting accuracy, and improve release-readiness decisions.
- Defined review metrics, validation checks, and issue categories to improve data accuracy, consistency, and quality reporting across cross-functional analytics reviews.
- Created business-facing documentation and insight summaries for product, engineering, and compliance teams, translating technical findings into reporting priorities, action items, and stakeholder-ready insights.

[Extern](#) | Sr. Analytics Engineer

Aug. 2025 - Apr. 2026

Madison, WI (Remote)

- Built analytics-enabled document review workflows for **200+ page mortgage and loan files**, improving extraction accuracy to **95%** and enabling page-level traceability for business users reviewing financial documents.
- Benchmarked data extraction and retrieval methods across accuracy, latency, and cost, producing recommendations that improved financial document processing and implementation decisions.
- Reduced document processing time from **120 seconds to 15 seconds** through workflow optimization, improving review efficiency, scalability, and reporting readiness for client evaluations.

[NSF I-Corps Great Lakes](#) | Analytics Lead

Feb. 2025 - May 2025

Madison, WI

- Conducted **90+ stakeholder interviews** to gather business requirements, identify workflow gaps, and translate user needs into product requirements for an analytics-enabled booking platform.
- Secured **\$10,000 in National Science Foundation funding** by presenting customer discovery findings, market opportunity, and a prioritized implementation roadmap.

[HP Tech Ventures](#) | Data Analyst

Jun. 2024 - Aug. 2024

Palo Alto, CA (Remote)

- Evaluated **30+ AI/ML startups** for venture diligence, translating technical, financial, market, and go-to-market signals into investment recommendations for partners.
- Built Snowflake and SQL workflows across **150K+ records**, improving data preparation, reporting consistency, and analyst review cycles for time-sensitive diligence decisions.

[Prayas Entertainment](#) | Sr. Data Analyst

Jan. 2021 - Apr. 2023

Mumbai, India

- Built Tableau dashboards, Excel reporting packages, and weekly performance reports for scheduling, demand planning, revenue, attendance, and staffing, improving leadership visibility into operational and financial performance.
- Developed forecasting and customer segmentation analyses using PostgreSQL, Python, R, and SAS to identify demand trends, high-value audience groups, and retention opportunities.
- Automated recurring data preparation and reporting workflows with Alteryx, Excel, and Tableau, improving data consistency and reducing manual reporting effort across sales, marketing, and operations datasets.

[Indigo Events and Promotions](#) | Data Analyst

Mar. 2017 - Mar. 2020

Mumbai, India

- Built Power BI dashboards and recurring Excel reports using SQL Server, Alteryx, R, and SAS to monitor ticketing, customer, promotion, and regional market performance for business users.
- Analyzed sales, audience, campaign, and market data to identify demand trends, revenue opportunities, and planning risks across live event campaigns.
- Presented weekly performance insights to marketing and operations teams, translating trends and reporting outputs into decisions on promotion timing, pricing, targeting, and market prioritization.

PROJECTS

[Bankruptcy Risk Pipeline](#) | Financial Data Analysis | [GitHub](#)

- Modeled bankruptcy risk across 6,800+ company records at 95.97% accuracy, identifying EPS and operating margin as key decision drivers.

[InsightTube AI](#) | Semantic Search & Reporting App | [GitHub](#)

- Built FastAPI/Streamlit reporting app over YouTube API data, enabling question-based retrieval with source-attributed outputs.

[Kafka Login Event Stream Pipeline](#) | Data Quality & ETL | [GitHub](#)

- Built validated event-data pipeline with schema checks, timestamp parsing, and dead-letter routing to improve downstream reporting data quality.

TECHNICAL SKILLS AND CERTIFICATIONS

Languages & Analytics Tools: SQL, Python, R, SAS, Excel, Microsoft Access, Alteryx

Data Platforms & BI: Snowflake, PostgreSQL, SQL Server, MongoDB, Redshift, Power BI, Tableau, AWS (S3, Glue, Lambda, SageMaker), Azure, Databricks

Methods: Data Modeling, ETL, Data Warehousing, Data Validation, Exploratory Data Analysis, Statistical Analysis, A/B Testing, Forecasting

Certifications: [Databricks Data Engineer](#), [Snowflake SnowPro Core](#), [Azure Data Scientist \(DP-100\)](#), [Power BI Data Analyst \(PL-300\)](#), [Salesforce Tableau Data Analyst](#)

EDUCATION

University of Wisconsin-Madison | M.S. in Information (Data, ML, Cloud), GPA: 3.95/4.0

Sep. 2023 - May 2025

University of Mumbai | Bachelor of Management Studies, GPA: 3.5/4.0

Jun. 2013 - Jul. 2017
